

Southport Homewatch Association Personal Security Devices

Window Alarm

An easy to use alarm, designed to increase the safety of a property. When installed on a window, the alarm provides both a visual and an audible deterrent. The alarm is triggered if the glass is hit or knocked.

- 3 x LR44 batteries (included)
- 85dBs siren
- Self adhesive sticker

Football Personal Alarm

The Football Personal Alarm's unique design means its true function as a powerful personal safety alarm is kept discrete. The loud 125dBs siren is activated by pulling the attached key ring out of the socket and will continue to sound until the pin is reinserted.

Bag Hanger

Quick and easy solution to bag snatching in public places. Safely and securely store bags; Prevents opportunist bag snatching; Packed in a convenient pouch.

Simply rest the rubber head on a table top and fold out the hook and hang the bag on the hook.

Personal Alarm

The Defender IIIIT has a hugely powerful 143 decibel siren that will instantly shock and deter potential attackers. A highly versatile, multi-function device, the rip-cord attachment means it can also be successfully used as a bag alarm, or wall-mounted on a door/window frame as an entry alarm, using the bracket provided. The Defender IIIIT also features a built-in strobe torch which flashes brightly when the alarm is activated to attract attention. The alarm is protected by its durable ABS housing. Size 7x5x3cm Weight 32g.

Guard Light

The stylish quad LED display provides a powerful 600 lumen output to deter unwanted visitors. The unit has a motion detection range of up to 5m, supported by a light sensor for dusk till dawn operation. The spotlight can be rotated 360° degrees for coverage in any environment. Requires 4 x Batteries (not included).

Signal Blocker

Innovative new product that combats both car crime and dangerous driving, as featured on BBC News and Rip Off Britain and reviewed by AutoExpress. The Defender Signal Blocker can be used for mobile phones and car fobs and has achieved the coveted Secured By Design - Police Preferred Specification.

Car Crime

Simply store car key fobs in the faraday pouch and seal. This will instantly stop the transmission of the signal from the car key, preventing thieves from being able to 'boost' it. Made from RPF™ material, a unique material developed exclusively for the supplier.

Dangerous Driving

A mobile phone can be stored in the Defender Signal Blocker and when sealed, the phone will be unable to receive calls, messages or notifications. This prevents distractions while driving and blocks temptation for drivers to check their phone while behind the wheel. Once removed from the pouch, all missed calls and notifications will pull through in a short time.

How to Purchase

If you require any items please email us on contact@southporthomewatch.org.uk or leave a message on 0151 777 4019 detailing what you would like and we will get back to you asap.
